

Explore Green Solutions to Analytical Problems at the 2018 EAS With These Exhibitors

Last updated April 18, 2018

ACS New York Section	Malvern Panalytical
Activated Research	Martel Instruments LLC
Agilent Technologies	Metrohm USA
Airgas USA	Mettler Toledo
Alliance Calibrations Group	MicroSolv
American Chromatography Supplies	MilliporeSigma
American Laboratory	New Era Enterprises
American Pharmaceutical Review	New York Microscopical Society
Anasys Instruments	New York/New Jersey SAS
Arizona Instrument	NJ Mass Spec Discussion Group
Bruker Corporation	Omicron Scientific
B&W Tek	Oxford Instruments
Cayman Chemical	Parker Hannifin
CEM Corporation	Peak Scientific
Cintas Co./DuPont Co.	PerkinElmer Inc.
Chromatography Forum of DE Valley	Postnova
Coblentz Society	Reichert Technologies
Distek	Renishaw
Dissolution Technologies	Restek
DWK Life Sciences	Rigaku Americas Corp.
ECI Technology Inc.	Rudolph Research Analytical
Elemental Scientific	Sannova
Entech Instruments	Sartorius
ES Industries	Savillex
Evolution Scientific	Sciex
GenTech Scientific	Shimadzu Scientific Instruments
GERSTEL, Inc.	S-Matrix Corporation
Gibraltar Laboratories	Spectro Analytical Instruments
Hi Scientific	Spectrum Chemical Mfg. Company
Innovations United	Spex Sample Prep
Inorganic Ventures	TA Instruments
JASCO	Thermo Fisher Scientific
JEOL	US Pharmacopeial Convention
Lab Manager/LabX	Viavi Solutions
LCGC and Spectroscopy Magazines	VUV Analytics
LEAP Technologies	Waters Corporation
LGC Standards	Wyatt Technology
Logan Instruments	YMC America
Macherey-Nagel	ZirChrom Separations
Mac-Mod Analytical	

Very limited exhibit space still is available for the 2018 EAS Exposition.
