

Explore Green Solutions to Analytical Problems at the 2018 EAS With These Exhibitors

Last updated September 19, 2018

ACS New York Section	MicroSolv
Activated Research	MilliporeSigma
Aczet	MIRTHE+ Photonics Sensing Center
Agilent Technologies	Molnar Institute
Airgas USA	Mott Corporation
Alliance Calibrations Group	Nacalai
American Chromatography Supplies	New Era Enterprises
American Laboratory	New York Microscopical Society
American Pharmaceutical Review	New York/New Jersey SAS
Anasys Instruments	NJ Mass Spec Discussion Group
AMETEK Arizona Instruments	Omicron Scientific
Bruker Corporation	Parker Hannifin
Cayman Chemical	PerkinElmer Inc.
CEM Corporation	Photothermal Spectroscopy Corporation
Chiral Technologies, Inc.	Postnova
Chromatography Forum of DE Valley	Princeton Instruments
Coblentz Society	Reichert Technologies
Distek	Renishaw
Dissolution Technologies	Restek
DWK Life Sciences	Rigaku Americas Corp.
EST Analytical	Rudolph Research Analytical
GenTech Scientific	Sannova
GERSTEL, Inc.	Sartorius
Gibraltar Laboratories	Savillex
HI Scientific Services	Sciex
Innovations United	SCP Science
Inorganic Ventures	Shimadzu Scientific Instruments
IonSense	S-Matrix Corporation
JASCO	Sotax
JEOL	Spectro Analytical Instruments
Lab Manager/LabX	Spectrum Chemical Mfg. Company
LCGC and Spectroscopy Magazines	Spex Sample Prep
LGC Standards	TA Instruments
Logan Instruments	Thermo Fisher Scientific
Macherey-Nagel	Trajan Scientific and Medical
Mac-Mod Analytical	USP
Magritek	Viavi Solutions
Malvern Panalytical	VUV Analytics
Martel Instruments LLC	Waters Corporation
Merlin Instrument Company	Wyatt Technology
Metrohm USA	YMC America
Mettler Toledo	ZirChrom Separations

A small number of tabletops still are available.

For additional information, please contact Sheree Gold, Exposition Director, at 610-742-4981 (cell) or easinfo@aol.com
